

The world is within reach

Livingston delivers to over 85% of the world's population

GLOBAL LOGISTICS

Livingston, Europe's leading rental company, currently ships test equipment to over 90 countries, giving you the ability to reach 85% of the world's population.

We have a well established infrastructure in place to manage temporary importation and exportation. We use this to successfully transport test and measurement equipment internationally every day.

You can take advantage of our expertise in global logistics by calling or emailing our specialist team.

How can Livingston help?

- Advise average time to any destination
- Recommended the best forwarder/carrier
- Calculate duty levels
- Understand country specific restrictions
- Organise all documentation
- Supply fast budgetary costs for shipping
- Arrange door to door transportation
- Import/export tax advice
- Tracking of equipment
- International border negotiation
