## **Livingston Publishes New Catalogue**

*Giving access to comprehensive inventory of used test equipment*

24<sup>th</sup> October 2011 - Test equipment sourcing specialist Livingston has released the latest edition of its Used Equipment Catalogue. Available in English, German, French, Spanish, Italian, Polish and Dutch, the catalogue is divided into six core categories: General Purpose, Electrical & Industrial, Fibre Optics, RF & Microwave, Communications and Broadcast. It includes a broad variety of test hardware, such as power supplies, logic analysers, frequency counters, oscilloscopes, function generators, multimeters, power quality analysers, fibre optic splicing equipment, optical sources, signal analysers, network analysers, signal generators, cable/antenna testers, protocol testers, access testers, radio test sets, video test systems and thermal imaging cameras.

Among the leading equipment manufacturers to found in this publication are Aefos, Aeroflex, Agilent Technologies, Anritsu, Chauvin Arnoux, EXFO, FLIR Systems, Fluke, JDSU, Lecroy, Rohde & Schwarz, Sumitomo, Sunrise Telecom, Tektronix, Trend Communication and XL Wireless. All items are immediately available from stock and come with a seven day money back guarantee. Calibration and warranty options are also available on request.

Among the items on offer are:

- The Tektronix TDS3014B 100 MHz, 4-channel digital oscilloscope, which is capable of acquiring 1.25GSamples/s. This product sports a full VGA colour LCD display and has 9-bit vertical resolution.
- The Rohde & Schwarz FSIQ7 spectrum/vector signal analyser for 20 Hz to 7 GHz frequencies, with a resolution bandwidth of 1 Hz to 10 MHz. This product has a 9.5" TFT display, along with RS-232, parallel, & IEEE interfaces.

- The Fluke 8250-04 compact optical power meter which has a power measurement accuracy of  $\pm 0.25$  dB, a power measurement range of +3 to -55 dBm and a power measurement linearity of  $\pm 0.25$  dB.

“The continued atmosphere of uncertainty in the market means that companies need to be increasingly cautious about their test equipment spend,” states Philippe Suel, Marketing Director for Livingston Group. “By making use of Livingston’s expansive selection of top quality used equipment, it is possible for them to meet their test needs at a mere fraction of the cost that would otherwise be involved through purchasing brand new items.” “With the combination of used equipment, equipment rental and asset recovery offerings that Livingston provides, we are well positioned to help our customer optimise their finances and make the most of business opportunities that arise through the constant advancement of technology.”

#### **About Livingston:**

Livingston provides and manages test equipment for companies in more than 100 countries worldwide, giving them access to leading edge products regardless of their budget constraints. Founded over forty years ago, the company has built up a highly experienced team of engineering and supply chain professionals. Its services include rental, calibration management, and inventory management. Partnering with Livingston allows companies to optimise their capital expenditure, bringing greater return on investment, as well as generating cash for unused or underused assets through its equipment disposal and redeployment activities.
